

AK-650

Armorkite

The AK-650 is a revolutionary kiteboat that asserts its personality by its new traction mode. This Etienne BERTRAND design is inspired by the latest mini-650 with its round nose and taut hull.

Light, with no mast or ballast, AK-650 is very easy to launch.

Total weight : trailer + AK-650 < 750 kg

Its 7 cm draught makes it very easy to beach.

The interior layout and the 2 or 4 berth option make it ideal for cruising with family or friends.

Designer
Etienne Bertrand

The Ak-650 is a boat with many facets. Adventurous and fast or smooth and comfortable, it adapts to your navigation style and desires thanks to different types/sizes of kite.

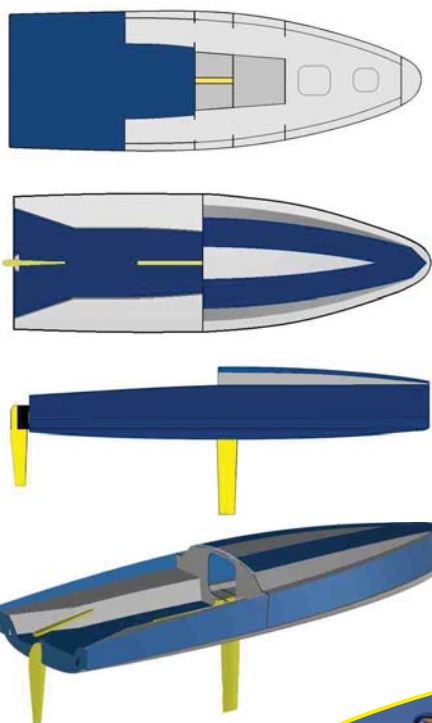

Versatile predictable kite performance allow to manage boat speed...

... with impressive acceleration and surf.

ArmorKite developed a kite launching system with electric pump and winch, as well as its distinct rig.

There are two lines and a hoist controlling the kite from inside the cockpit. Kite is linked to the boat with 5 dyneema from 2 to 4 mm².
