

## WILLIWAW

Class: C  
Flag: Belgium  
Length: 14.45m  
Rig: Bm Ketch  
Year Built: 1970  
Home Port: Antwerp  
Sail Training  
Entered By: Association  
Belgium

### Biographical Data:

Williwaw belongs to the Sail Training Association of Belgium (S.T.A.B.), having been entrusted to them from the city of Antwerp in 1998. S.T.A.B. completed a total restoration of Williwaw using volunteers and help from the National Maritime Museum.

Onboard Williwaw, a world traveller Willy de Roos first circumnavigated the American continent from east to west, sailing via the northwest passage in Greenland and the Bering Strait, reaching the west coast of North America before sailing onto Antarctica in 1979.

Williwaw is used for sail training young people and is a floating ambassador for the National Maritime Museum in Antwerp. In winter she is moored at the museum dock and in summer sails with young people onboard.

She is a regular participant in the Tall Ships Races.
